GreenPro is a mark of guarantee that the product which bears the GreenPro label is environment friendly throughout its life cycle. GreenPro ultimately empowers a customer with the knowledge of the product and steer towards sustainable products.

Following the Life Cycle Approach

What it means for the environment

Safety of Water Bodies as maximum Pollutants are eliminated in the outflow from buildings. Least Impact on Rivers, Lakes & Aquatic Life.

Safety of Soil as no accumulation of Hazardous Chemicals.

Ensure a Healthy Environment for People in Buildings

What it means for You

Safety & Health of People through Improved Air Quality - Lowest VOCs & Heavy Metals, no Carcinogens & Prohibited Ingredients.

Safety of Your Built Assets as the products are Non Flammable & in Safe pH range.

GreenEarth PeopleSafe

At Haylide, our aim is that Hygiene & Cleaning, should be friendly to the Environment & People.

GreenPro Certification is a big leap forward in this direction. Our quest for Excellence in Green Cleaning Products, will be an ongoing journey of constant R&D, to bring you the best & safest products in the segment with a Green Bottom Line

We shall encourage all manufacturers to make Green Cleaning Products as the mainstay of their business models, so that the cleaning industry leaves a Greener & Safer Planet for generations to come.
